Technical Skills

- Html5,Css3,Javascript
- Responsive Design
- Bootstrap,TailwindCss
- Typescript,React,nextjs
- Python,Django,React Native
- Mysql
- Github
- MS-office

Soft Skills

- Communication
- Good analytical skills
- Problem Solving
- Creativity
- Time Management
- Adaptability
- Flexiblity
- Team work
- Growth mindset

Education Background

Masters in Computer Science.
Academic Year:2021-2023
CGPA:7.1
University:Osmania University

Bachelors in Science (MPCS)
Academic Year:2018-2021
CGPA:9.35
University:Osmania University

MPC(maths,physics,chemistry)
Academic Year:2016-2018
Percentage: 88%
College:Hussaini Alam junior college

SSC(10th) From Salala HIgh School
Academic Year:2016
CGPA:7.3

CERTIFIED TRAINING:

- Frontend Development From NIMSME
- Python Programming Course

CAREER OBJECTIVE:

Enthusiastic and detail-oriented Frontend Developer with over 1.5 year of experience, boasting a solid foundation in web development. Eager to contribute creative solutions and technical expertise to a collaborative team.

EXPERIENCE :

Frontend Developer (1.5 years of experience):

- As a frontend developer with 1.5 years of experience, I have worked extensively with React.js,React Native,Redux Toolkit, and Redux Thunk to build dynamic and responsive web applications
- My experience includes developing and maintaining complex UIs for projects such as ECommerce platforms, Packer Mobile Application using React Native.
- I have a strong proficiency in creating reusable components and managing state efficiently, ensuring a seamless user experience. Additionally, I have utilized Tailwind CSS for styling, achieving consistent and responsive designs across devices.
- My role involved collaborating closely with cross-functional teams, optimizing performance, and ensuring code quality through best practices.

Projects:

Portfolio-Link

Title: Packer Mobile And Web Application: *Link*

- Packer is a mobile and web application built using React Native for mobile (with React Native Paper) and ReactJS for web. It integrates APIs with Redux Toolkit for state management and uses Cloudscape Design System for a seamless user interface experience

Title: Ecommerce Admin-Portal *Link*

- Developed an E-Commerce Admin Portal to manage product inventory, customer data, and order processing.
- Implemented dynamic dashboards for real-time analytics and streamlined workflows with intuitive UI components.

Title: Inventory Management *Link*

- Developed a Inventory Management System using React.js, Redux Toolkit, and Redux Thunk. Collaborated with designers and backend teams to integrate APIs for real-time data management. Utilized Cloudscape Design and Tailwind CSS for a modern, user-friendly interface. Focused on efficient state management and optimized performance. Ensured seamless user experience through advanced asynchronous action handling.

Title: Flipkart Clone *Link*

- Developed a Flipkart clone featuring key functionalities such as product listing, a search bar for filtering products, and an interactive shopping cart with increment and decrement options.
- Implemented user authentication with sign-in and sign-up forms, and added a comment section for product reviews. The entire project was built using JavaScript, HTML, and CSS, ensuring a user-friendly interface.
